IX International Congress

AUTISM-EUROPE

A FUTURE FOR AUTISM

First Announcement

&

Call for Papers

Autism-Europe is calling for original papers characterized by their scientific content and significance, social value, originality, and impact on the quality of life of persons with ASD and their families

Come to the Autism-Europe Congress and find out more

The radical innovation that has taken place in recent years will make this Congress too important to be missed

About Catania & Sicily

history - art - culture - nature - sea & sand

For tourist information, visit the About Catania & Sicily page at:
www.autismeurope2010.org

Important Dates

31 January 2010 deadline online abstract submission
30 April 2010 deadline notification of selected papers/posters
31 May 2010 for Early Bird registration

Congress Programme

state of the art lectures - keynote symposia - paper & poster sessions

The Congress aims to diffuse the most up-to-date evidence-based scientific knowledge and reliable information in the field of ASD and influence policies and care within a contemporary approach to disability.

Congress Topics

Neurosciences and Cognitive Functioning
Neurobiology, Epidemiology and Genetics
Treatment and Education, Provision and Services

Abstract Submission from September 2009

Please visit the Call for Papers page at www.autismeurope2010.org for all information regarding online abstract submission

All papers and posters should reflect the aims and topics of the Congress.

New generation researchers and operators in the field of Autism will again have the opportunity to present the features of their work in group poster presentation sessions chaired by keynote speakers.
